

## MULTI-LEVEL INTERVENTION

- Youth Friendly Health Services Training
- Integration of GUG package into Family Life Education (MOE)
- Teacher training

### Norms supportive of ASRH and gender equity:

- Discussing (A)SRH topics is not stigmatized or punished
- Household responsibilities should be shared by boys and girls
- Education is equally valued for boys and girls
- Violence is not acceptable for conflict resolution within the family/ relationships
- Discussion of family size and joint decision-making on FP is normalized

## MECHANISMS OF ACTION

## INTERMEDIATE OUTCOMES

VYAs	Parents
<b>Increased SRH knowledge</b>	
<ul style="list-style-type: none"> <li>• Puberty*</li> <li>• Pregnancy‡</li> <li>• HIV‡</li> <li>• Availability of SRH services†</li> </ul>	
<b>Increased assets &amp; agency</b>	
<ul style="list-style-type: none"> <li>• Body comfort‡</li> <li>• Caregiver connectedness†</li> <li>• Communication about SRH with trusted adults†</li> <li>• Comfort seeking SRH services†</li> </ul>	<ul style="list-style-type: none"> <li>• Communication about SRH with adolescent children*</li> <li>• Decreased corporal punishment*</li> </ul>
<b>Increased gender-equitable attitudes &amp; norms</b>	
<ul style="list-style-type: none"> <li>• Equal attitudes re: boys/girls' responsibilities and free time†</li> <li>• Decreased endorsement of stereotypical traits/behaviors‡</li> <li>• Decreased acceptance of gender-based discrimination†</li> <li>• Decreased perception of peer SRH behaviors†</li> </ul>	
<b>Increased gender-equitable behaviors</b>	
<ul style="list-style-type: none"> <li>• Sharing of chores and support for education†</li> <li>• Decreased teasing/bullying†</li> </ul>	<ul style="list-style-type: none"> <li>• Equal distribution of housework*</li> <li>• Reduced restrictions on girls' mobility*</li> </ul>

## LONG-TERM OUTCOMES

1. Increased adolescent use of SRH services and contraception
2. Decrease in unwanted sexual activity among adolescents
3. Decrease in unintended pregnancy among adolescents
4. Reduced perpetration of GBV/IPV among adolescents
